PROFILE

I'm Yohannes Fikre Eshete, a passionate and detail-oriented Computer Science student with strong web and mobile development skills. I specialize in HTML, CSS, JavaScript, React, React Native, Python, and the MERN stack, with hands-on experience building user-friendly websites and applications. In addition, I bring expertise in graphic design and digital consulting, allowing me to create visually appealing and high-performing digital solutions. I'm driven by creativity, problem-solving, and a deep interest in technology and entrepreneurship, constantly seeking to deliver innovative projects that make an impact.

WORK EXPERIENCE

- **Project 1 - Tonetor Eteal Multimedia | 2023**
- **Engineered two dynamic, responsive websites: one showcasing cultural entertainment and another highlighting Orthodox spiritual content, delivering exceptional cross-device performance.**
- **Designed intuitive, user-centric interfaces with seamles navigation, enhancing engagement and accessibility.**
- **Implemented interactive front-end functionality using HTML, CSS, JavaScript, and React, ensuring smooth interactivity and high performance.**
- **Optimized content and overall performance, achieving faster load times and flawless multimedia integration.**
- **Managed ongoing site maintenance and updates, guaranteeing peak reliability and superior user experience.**
- **View the live project: Tonetor Eteal Multimedia**

Project 3 - Nash Dental Clinic | Freelancing

Description

Developed a modern, fully responsive website for Nash Dental Clinic, providing the clinic with a professional and engaging online presence to better connect with patients.

Key Contributions

- **Designed intuitive and user-friendly interfaces to improve patient interaction and simplify navigation.**
- **Built responsive front-end components using HTML, CSS, JavaScript, and React, ensuring seamless performance across devices.**
- **Implemented interactive UI features to enhance usability and provide a smooth browsing experience.**
- **Optimized website performance, speed, and content structure to ensure fast loading times.**
- **Ensured cross-device compatibility, allowing patients to access services easily from mobile, tablet, or desktop.**
- **Provided ongoing maintenance and updates to maintain stability, reliability, and optimal performance.**

Technologies Used

HTML • CSS • JavaScript • React • Responsive Design • Git • GitHub

Project 4 - HustleX | Freelancing Platform

Description

Developed HustleX, a modern freelancing platform designed to connect talented freelancers with clients seeking digital services.

The platform provides an efficient marketplace where users can post projects, hire professionals, and manage work collaborations seamlessly.

Key Contributions

- **Designed a modern, responsive user interface to ensure a smooth experience across desktop, tablet, and mobile devices.**
- **Built interactive front-end components using HTML, CSS, JavaScript, and React to create a fast and dynamic user experience.**
- **Implemented user authentication, project listings, and freelancer profiles to enable efficient hiring and collaboration.**
- **Optimized performance and usability to ensure fast loading times and intuitive navigation.**
- **Structured the platform to support scalable freelancing operations, including job posting, proposal submissions, and communication between clients and freelancers.**
- **Maintained the project through continuous improvements, debugging, and feature updates.**

Technologies Used

HTML • CSS • JavaScript • React • Responsive Design • Git • GitHub

Project - WakaNexus | Web Application

Description

Developed WakaNexus, a modern web application designed to connect users, resources, and opportunities through a streamlined digital platform. The project focuses on delivering an intuitive user experience while maintaining strong performance and scalability.

Key Contributions

- **Designed a clean, responsive user interface to ensure accessibility across desktop, tablet, and mobile devices.**
- **Built dynamic front-end components using HTML, CSS, JavaScript, and React for a fast and interactive user experience.**
- **Implemented structured navigation and user-focused layouts to improve usability and engagement.**
- **Optimized the application for performance, fast load times, and cross-browser compatibility.**
- **Utilized Git and GitHub for version control, collaborative development, and project management.**
- **Continuously improved the platform through testing, debugging, and feature enhancements.**

Technologies Used

HTML • CSS • JavaScript • React • Responsive Design • Git • GitHub
